SUMMARY

Principal Systems Architect with 8 years experience building high-scale distributed infrastructures.
Deep expertise in Python, C++, FastAPI, Docker, Kubernetes, AWS, PostgreSQL, and microservices.

TECHNICAL SKILLS

Python, C++, FastAPI, Docker, Kubernetes, AWS, PostgreSQL, Redis, Kafka, CI/CD, Linux, Git

WORK EXPERIENCE

Principal Architect | CloudScale Global (Jan 2020 - Present)

- Architected high performance backend systems using Python and C++ for sub-millisecond trading services.
- Engineered distributed microservices with FastAPI, Docker, and Kubernetes on AWS.
- Implemented relational persistence with PostgreSQL and Redis caching.

Senior Engineer | TechCore Systems (Jan 2017 - Dec 2019)

- Built backend services in Python and automated CI/CD deployment pipelines.

EDUCATION

B.Tech in Computer Science

IIT Delhi (2012 - 2016)
